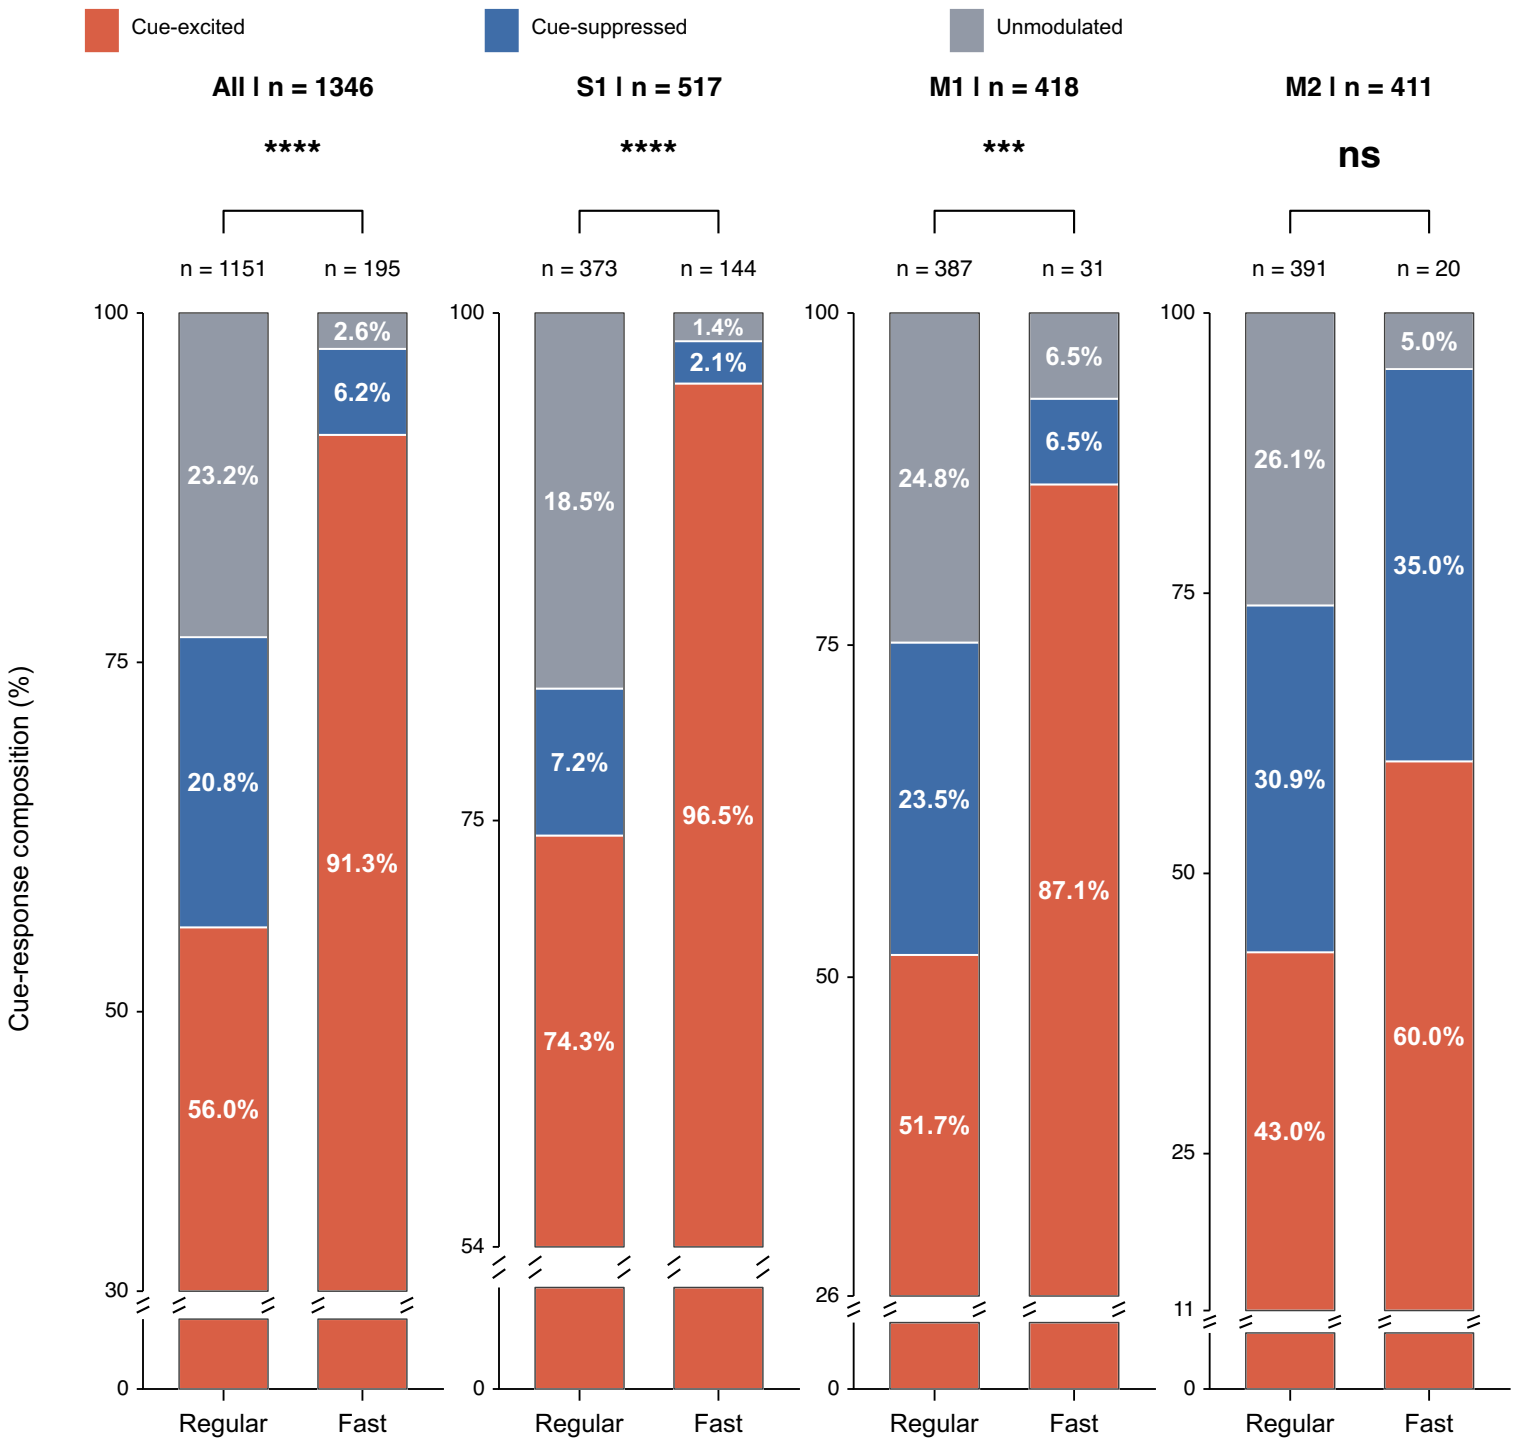
d **Cue-response composition by waveform class**

Two-sided Fisher exact test | Holm correction across four scopes | broken y-axes



Omitted y ranges: All 5-30%; S1 5-54%; M1 5-26%; M2 5-11%. Labels give actual percentages.

Breaks differ by area; compare printed percentages. The size ranking of all three response classes is preserved.

Holm-adjusted P: * < 0.05; ** < 0.01; *** < 0.001; **** < 0.0001; ns >= 0.05.
